BENEFITS OF OFFICE FRUIT

It is such an important time to be promoting health and wellbeing!

The natural and healthy sugar in fruit will keep you feeling energised throughout the day, so when that 3pm slump comes around, you don't need to feel guilty about reaching for a snack.

Did you know eating an apple will provide you more energy than a cup of coffee?

Even more reason to keep them around the office.

LIFT OFFICE MORALE AND GET MORE PRODUCTIVITY OUT OF THE TEAM.

A much fresher healthier alternative to sugary and fatty foods.

We make it convenient by delivering right to your door.

Fructose is a natural boost for those mid afternoon lulls.

The vitamins and antioxidants found in fruit and vegetables make us feel happy, creative and engaged, promoting positive brain function.
